WHEELING is guilty of many things

Wheeling is from time to time accused of things of which she is not guilty. For the first time in her history Wheeling is accused of robbing a tramp. This is painting the lily with a vengeance.

The monte man is abroad in the land and slaying his thousands. He prefers to select respectable old gentlemen and rarely misses his mark. Respectable old gentlemen should not be above learning without paying for the tuition.

The Secretary of the Connecticut Board of Health advises persons looking for country boarding to make a careful survey of the premises before locating. Drainage, ventilation, water supply are of the highest moment. If these are not as they should be country boarding becomes a trap that may prove a short cut to the grave. Great Britain is at it again, if indeed she has ever stopped trying to solve certain of her social and political problems by assisting emigration to the United States. Timothy Shea, a recent arrival who brought over his son and daughter, tells a very circumstantial story.

Shea comes from Tralee, in County Kerry, where there have been many revictions of the poor peasants. To keep the evicted from becoming a charge on the parish the landlords have appealed to the Government, and the Government has taken hold with a firm grip. New Fort Herold.

The coming trotting season promises to college all previous ones in interest.

The purses of the Grand Circuit, which opens at Cleveland July 30 and close at Philadelphia September 27, are more tempting than ever before. The aggregate exceeds a quarter of a million dolars. In these outries, as well as those of other neetings throughout the country the horses average up unusually well, while many flyers—some already firmous, others just beoming up—are in training for great efforts. Is spreckels Foeling Us?

Claus Spreckels, the sugar king who doth bestride this continent with one foot on the golden shore of the Pacific and the other on the shifting sands of the Atlantic, says once more that he not only has no connection with the sugar combination but it is his intention to give that grasping concern all the fighting it wants. The battle will be full on as soon as Spreckels geta his Philadelphia relinery in operation.

In spite of Mr. Spreckels' protestations, it is believed that he has a large finger in the pilling up of sugar in the Brooklyn store houses and that he is too shrewd not to be in for a share of the profits of the big squeeze. Persons who know Spreckels are confident that he is as deep in the mud as the others are in the mire.

Spreckels has as much right to do a wrong thing as those who are known to be in the scheme, but his offense would transcend theirs because he has declared himself about to be a great public benefactor as the evil genius of the Sugar Trust. Every third person you meet is troubled more or less with billousness, and don't know how to get rid of it. The causes are easily recorded. A lack of smilledent exercise, cating too much by persons of sedentary habits, indulgence in too rich food, a singgish torpid liver where the blood does not do its duty, and bile is allowed to accumulate; these causes the whites of the eyes to turn yellow, the skin to look thick and coarse, and the complexion yellow or dark. These are sure indications of billousness. Brown's Iron Bitters is the remedy you want. It acts directly upon the blood, cleanses and purifies it, and sends it on its journey through the channels of the liver, giving to it activity and clearing out the bile. It will remove the yellow tings from the cyes and the complexion leaving the latter fresh and clear.

Slackwater to Morgantown.

A New Geneva correspondent of the Uniontown Standard says:

Contractor McDonald is up from Pittsburgh and will push the work on lock and dam No. 8 as rapidly as possible. The high stage of the river has made slow progress necessary during the most of the summer. The water is now at a more favorable stage and should it continue so Mr. McDonald egitmates that he can complete the contract in ninety days. The lock is about finished except the gates, and they are now dredging and preparing to put in the cribs for the dam. No. 8 is located at the mouth of Dunkard creek and when it is completed Morgantown will rejoice in being the head of slackwafer navigation. The present terminus is Grow's jerry, three miles above here, where a hack from Morgantown makes daily connection with the boat at about 9 or 10 a. m.

The opening to Morgantown will give a decified impetus to business on the Upper Monongabeia, where the navigation company, with daily packets from Pittaburgh, already do a thriving trade in freight and passenger traffic. Slapkwater to Morgantown

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that js by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by catarrh, that we caunot cure by taking Hall's Catarrh Cure. Send for circulars, free. DAW F. J. CHENEYA & Co., Toledo, O.
